

# Congratulations to our 2023 Madison College graduates

Dear Graduates:

Together, tonight, let us pause to reflect on the significance of this commencement and your accomplishments.

You have successfully completed your program of study and will soon collect your college diploma and embark on the next chapter of your story. It's an achievement that deserves reflection, pride and celebration.

Sharing this milestone with you is an honor. I join with your family, friends, instructors, and others in celebrating each of you and your success. Getting to where you are today took hard work, sacrifice, perseverance, and a steadfast belief in yourself and your goals. I hope that you take great pride in all you've accomplished.

There are as many stories and "whys" in this room tonight as there are graduates. But one thing that you all share is that you have a vision and belief in the importance of a college education. You each understand the benefits it can bring to you, your families, our workforce, and our community.

Tonight, you join the proud ranks of Madison College alumni. As you continue in your next chapter, please carry this affiliation proudly and serve as a champion of the college and a representative of the values we hold dear.

Congratulations on your graduation, and our sincerest wishes for a fulfilling, happy, and prosperous future.

### Emily E Dolan

Nursing, Associate Degree

Emily Dolan is graduating with an associate degree in the Registered Nursing program. After graduating from Madison College in 2009 and working as a Licensed Practical Nurse, she decided to pursue her dream of becoming a Registered Nurse. After graduation, Emily will be starting an RN Residency program in the Cardiovascular/Cardiothoracic Intensive Care Unit at UW Hospital, in Madison.

Emily entered the Registered Nursing program via the LPN to ADN Bridge pathway and has been passionate about promoting that opportunity to others. She has spoken to incoming bridge students during their orientation. Emily participated in the Advanced Cardiac Life Support course offered to fourth semester nursing students. She feels that the education and guidance that she received at Madison College over the last 16 years has not only prepared her well professionally but ignited a desire to provide the same opportunity for Madison College students in the future.

Emily lives with her family in Cottage Grove, WI. She enjoys spending time with her little boys and going on as many adventures with them as possible.

## ACADEMIC REGALIA

As we know it, academic life began first in the church, then in the guilds. The teaching guild was the Guild of the Master of Arts, where the bachelor was the apprentice of the master, and the dress was the outward sign of privilege and responsibility.

Although the flowing gown was originally worn for protection against the cold of unheated buildings, it has now become a symbol of the democracy of scholarship, since it covers any dress of rank or social standing worn underneath. The bachelor's gown has pointed sleeves, the master's gown has oblong sleeves with an arc at the bottom, and the doctor's gown has bell-shaped sleeves. The bachelor's and master's gowns are untrimmed.

The doctor's gown is faced down the front with velvet and has three bars of velvet across the sleeves. The facing or bars may be black or another color pertaining to the discipline.

The hood gives color to the academic costume while its length indicates the wearer's academic degree. Hoods are made in a wide panel of black cloth matching the gown, and are lined with satin in the official academic colors of the institution where the degree was conferred.

The colors are used in the edging of hoods, and in some cases for the trim of the doctor's gowns associated with the discipline.
