

Madison College Facilities Rental Rates

***These rental rates are effective July 1, 2024, through June 30, 2025*

To assist in planning and budgeting for your event, below is a list of the facilities rental rates at each campus. In addition, rates for additional services Madison College can provide for events are included.

Please note that we do offer a rental discount of 20% during the summer term (typically May 15th – August 15th for weekly rentals).

Madison College will schedule labor as needed to support the event. Users may request changes to the schedule but must honor breaks and mealtimes for all staff. Users will be billed for any overtime associated with their event when an employee works beyond 8 hours per day or 40 hours per week in support of their event.

Madison College buildings are open during designated hours and closed for specific holidays.

Any events scheduled beyond the normal hours of operation may require additional staff support from the College at a higher rate.

Hybrid Classrooms are classrooms that generally contain a Webex classroom setup for a hybrid meeting experience.

Laboratory Space are specialized classroom spaces. The type of laboratory available varies by campus.

General Use Classroom are “typical” classrooms designed for traditional, in-person learning.
