

COLLEGE POLICY

POLICY NUMBER: 2505

DATE APPROVED: September 2016

POLICY TYPE: Administration

POLICY TITLE: Transportation Policy

RESPONSIBLE ASSOC. /VICE PRESIDENT: Executive Vice President for Finance & Administration/Chief Operating Officer

POLICY PURPOSE:

The College will promote a transportation culture that provides open access to all its services, considers its role as a consumer of finite fiscal and environmental resources, seeks a positive transportation experience districtwide, and supports overall user health and well-being.

POLICY:

Madison College will educate the college community regarding a wide variety of affordable and convenient transportation options, costs and benefits.

The College will create a standing committee, under the direction of the President or designee. The charge to this committee is to coordinate and implement the work of this policy. Representatives of the committee would be diverse and representative of stakeholder groups, the Student Senate Commuter Services Committee and members of the Facilities Planning & Investment Council.

Madison College will strengthen and develop partnerships with other commuting resources such as Madison Metro, BCycle, campus shuttle services and local municipalities. This list is not intended to be limiting. It is expected that the standing committee will leverage partnerships as needed.

Madison College will continually evaluate future needs in developing and maintaining a comprehensive transportation plan with ongoing feedback, assessment and improvement. The College will utilize technology that supports safe, functional and sustainable transportation access for all stakeholders.

The plan will be in compliance with federal, state, county and local laws and ordinances. The responsibility of administering the policy resides with Administrative Services. The responsibility of compliance with transportation and parking procedures rests with the entire campus community.
