Review of Interests vs. Positions coupled with the list of interests generated through Google Docs

2:30 p.m.  Top Interests Sharing

Participants will share their top 2-3 interests (hopes, worries, concerns, needs) surrounding the charge given to us by the College Assembly. These interests will be captured by the Scribe.

2:40 p.m.  Interests Sharing “Walk-n-Talk”

Participants will share their remaining interests while walking with a partner. They should collaboratively work toward refining their lists while considering the possibility of adding new interests altogether. The interests that come out of the discussion should be recorded on post-it notes.

3:00 p.m.  Interests Affinity Process and Discussion

Participants will post their post-its according to theme. Some may fit in with the previously mentioned and recorded interests while others may not. As much as possible, however, the group should look for themes and group interests accordingly. If positions (options) are shared they will be captured but there will be follow-up discussion to uncover the interests driving the positions. If questions arise or more details are needed to clarify any of the interests, a follow-up discussion will occur.
