Connecting to Secure Wireless

Quick Setup: Macintosh OS 10.6

1. Click on the wireless networks icon on the top of the screen near the right side.

2. Click on the “MC-Secure” network. There should be a lock icon to the right of the name.

3. Type in your Madison College username and password.
a. This is the same username you use to connect to Madison College email.
b. Only type in your username, not the “@MadisonCollege.edu” portion.

4. When your computer is connected, the prompt screen will disappear. If you click on the wireless network icon again you will see checkmark printed beside the MC-Secure wireless network.
