The Adult Learning Center is a place where a student can learn, brush-up or review basic skills in all areas of study. Each student is encouraged to work at his/her own speed under the direction of an instructor.

Once a student is registered to use the Learning Center, he/she may set up a schedule of attendance that fits his/her life style. The instructors ask that once that schedule is set, a student call the instructor if he/she is going to be missing for more than two consecutive sessions. (745-3100 or 745-3119). This courtesy will ensure that the instructor keeps a place of attendance for the student.

Any person wishing to begin a HSED/GED program must call the office (608-745-3100, ext 0) and schedule a time for a GED/HSED orientation. This is state required.
